CRIME SCENE

Why the free offer?

We want to get our products out to *interested* people. Quickly and efficiently. The same way you want to process crime scenes.

“Mailing a kit out to everybody” can get awfully expensive at \$60 a pop. Again... there’s no cost or risk. You’ll get plenty of supplies to use and pass around (\$60 worth); try out new concepts in latent fingerprinting...no obligation and we pay the shipping.

Brought to you by the Lynn Peavey Company, a 32-year-old leading manufacturer of innovative and affordable Crime Scene Gear.

*We are expecting to run out of supplies quickly. Don’t delay...**respond today**. If response “goes through the roof,” we will not be able to afford to send out \$60 free kits to all responders. You will be notified if we can’t accommodate.
