

Finally.

Corporate Safety **Simplified.**

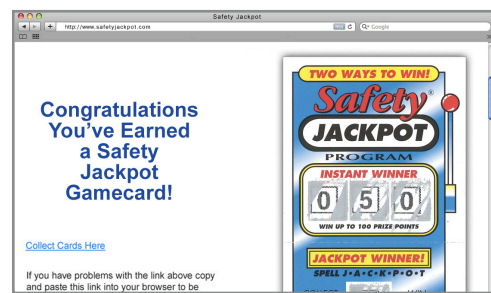

An easy, fun...and affordable way to reduce accident costs ^{& health care}

The nation's first.

Of all the safety programs out there, only one is easy to administer, user friendly, and motivates the troops beyond belief. Introducing the all new Safety Jackpot On-Line.

With the Safety Jackpot on-line portal, you simply pick and choose the safety modules you'd like to offer and reward your employees for. Easy to use safety and wellness trackers, Online Training with quick quizzes, Accident reporting, Safety observations and suggestions, and PPE compliance are all options. Have existing safety offerings you'd like to integrate? Have employees that have no computer access? No Problem, we have solutions.

The system does all the work for you, including automatically rewarding safety behavior with the most proven, attention grabbing recognition structure in the world.

Fun Gamecards & Teamwork = Safety Awareness.

Fun, scratch-off gamecards are rewarded via direct e-mail.

Employees scratch off points and letters right on the screen!

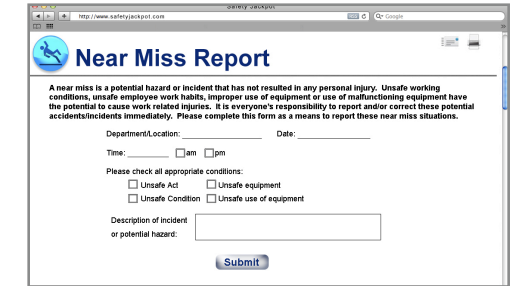

Points are collected and redeemed for Cash, Gift Cards, your own Logo'd items or Catalog Merchandise. Your choice! In addition, letters revealed on the cards are traded amongst co-workers in efforts to maximize odds towards Major National Jackpot Prizes (Up to a Million bucks!)

Automated.

Integrated Safety widgets create automatic (no administration) tracking of all reported near misses, safety suggestions, observations, attendance and accident reporting, as well as health wellness behaviors. Gamecards are automatically emailed. The days of having to track everything separately, manually, and then physically hand out rewards are over.

Educated.

Safety Training has never been so effective. Employees receive gamecard rewards for retaining your safety information and scoring well on quizzes.

Justified.

Extensive safety reports showing your company's safety progress and Return on Investment. Enjoy having all of your safety initiatives kept in one simple easy to administer package.

Our Clients.

(it's not our first rodeo)
